AI Product Manager

Job Title: AI Product Manager

Location:

[Location] (Opportunities for remote/hybrid/flexible work available)

Reports to:

VP / Director / Head of Product Management

Role Purpose

.We are seeking an experienced AI Product Manager to lead the development of our next-generation artificial intelligence solutions. This role is pivotal in shaping products that meet market demands and drive business objectives.

Company Overview

Summarise your company and its culture.[e.g. [Company Name] is a leading AI technology company specializing in developing advanced artificial intelligence solutions for [specific industry or application]. Our mission is to [company mission]. We foster a collaborative and inclusive work environment that encourages creativity and professional growth.] Include USPs and technical innovation or focus that will appeal to the ideal candidate [e.g. Recognized as one of the "Best Places to Work" by [Awarding Body], we are committed to excellence in AI technology.]

Key Responsibilities

- Define and execute the product strategy and roadmap for AI solutions.
- Collaborate with engineering, data science, and design teams to develop and launch products.
- Conduct market research to identify customer needs and market trends.
- Prioritize product features based on business value and customer impact.
- Coordinate with sales and marketing teams to develop go-to-market strategies.
- Monitor product performance and user feedback to drive continuous improvement.
- Ensure compliance with ethical guidelines and regulatory standards in AI development.

AI Product Manager

Required Skills and Qualifications

- Minimum of [X] years of product management experience, preferably in AI or technology sectors.
- Strong understanding of AI technologies, machine learning, and data analytics.
- Proven ability to manage product lifecycles from concept to launch.
- Excellent communication and leadership skills.
- Experience with agile development methodologies.
- Strong analytical and problem-solving abilities.
- Bachelor's degree in Computer Science, Engineering, Business, or a related field.

Perks and Benefits:

Clearly outline the benefits and perks of the role.

How to Apply:

End with a strong call to action encouraging candidates to apply. Include a direct link to the application page and provide contact information for further queries.

Please ensure each job description includes all relevant information in compliance with local, state, and national laws. This includes:

- **Salary Information:** Provide a clear salary range to maintain transparency and meet legal requirements.
- **Privacy Policies:** Protect candidate privacy by following all applicable data protection and privacy laws.
- **Equality & Non-Discrimination:** Include an equal opportunity statement to uphold our commitment to a diverse, inclusive workplace that does not discriminate based on race, gender, age, disability, or any other protected characteristic.
- **Accessibility:** Make reasonable accommodations available for candidates with disabilities and include information on how they can request assistance throughout the hiring process.
- **Environmental and Social Responsibility:** If your company has sustainability initiatives or community engagement programs, mentioning them briefly can attract candidates who prioritize working for socially responsible employers.
- **Transparent Hiring Process:** Briefly explain the hiring process (e.g., "Our interview process typically includes three stages: an initial screening, a technical interview, and a final interview") to help candidates know what to expect.
